INSTRUCTIONS

By default, you will receive an email for every group post. To change the frequency so you receive a daily email with all posts from that day, or an email for every 25 posts, whichever comes first, please contact the Administrator of your listserv.

To create a post from your email, send an email to the email address associated with the listserv. The subject line should be the topic you are posting about and the body should contain your information to share or a question.

To reply to the entire group from your email, click "Reply All" and respond to the post as you would in a normal email reply. (Please be mindful when using the "Reply All" function and avoid responses to the entire group such as "I would like to see that resource too.")

To reply to an individual within the group from your email, please contact that person directly by copying and pasting their email address instead of the group's email address.

To unsubscribe from a group, send a message to the Administrator of the group.

GUIDELINES

These groups create an important opportunity to share information and questions that draw upon the collective wisdom of our CASA network. Listservs are for the use of the network, and members of the group are the decision makers about content. We ask that you keep the following guidelines in mind:

- Each listserv has an inherent confidentiality within the group.
- Never share case specific information that identifies children or families.
- Do not forward a posted email outside the listserv or your own CASA program without the sender's permission. Never forward a posted email to a community partner (ex: CPS) without express permission.
- Keep all posts professional.
- Where there are questions, please refer to the Texas CASA Standards for compliance and direction prior to posting on the listserv, which will minimize misinformation.
- Avoid non-essential conversations – Only post topics or questions that you believe the entire group will have an interest in and/or be able respond to.
- Feel free to attach any program resources, documents or tools that you believe other network programs would find beneficial.
- Please use the listserv as a support among positions and programs within our CASA network.

PLEASE NOTE:

- For ED and PD listservs, Texas CASA will only enter the dialogue to address misinformation that could adversely impact the network.
- Collegiality is anticipated. However, Texas CASA may suspend or remove a person from a listserv over repeated violations of guidelines.
- Texas CASA staff are always happy to respond directly to questions, requests for resources or samples, to clarify CASA requirements or address any concerns through emails or phone calls.
