

IMPORTANT INFORMATION FOR FY2021 QUARTERLY PERFORMANCE MEASURES

If your program uses Optima to track your data, please see the attached [Optima Data Management Guide](#) for more details on submitting performance measures data. Use the Texas ODM Quarterly Child-Case Submission report and Texas ODM Quarterly Volunteer Submission report as described in the attached Guidebook to get the information for your report.

All programs are asked to report Child Status for **all children served during the quarter as of their last status of the quarter**. (We are clarifying the definition from last year to ensure all Programs are submitting information consistently.) Please note that you must also certify that all COS cases reported to Texas CASA were dually filed as a SAPCR.

▼ CHILD STATUS

Children in JMC 3

Children in PMC 63

Children in TMC 253

Children in COS

COS Certification

No status entered

The sum of these numbers should equal Children Served:

▼ PERCENT CHILDREN WITH VOLUNTEER (PChV) THIS QUARTER

Children continued 280

Children served 319

Children with volunteer (actual) 309

Children served by staff (actual) 10

Percent children with volunteer (PChV) 96.87

All Programs are asked to enter the number of newly served children with a volunteer. It is the last entry on your Performance Measures report. (This is a change from last year when only CVC Growth recipients were asked to enter this information.)

▼ NEWLY SERVED CHILDREN WITH VOLUNTEER

Newly served children with volunteer

Here are some guidelines for determining this number:

Look at children with cases opened during this quarter.

If they were assigned a volunteer this quarter, they count.

If they were not assigned a volunteer this quarter, they do not count. They can be rolled forward and counted in the future if and when a volunteer is assigned.

Look at kids from previous quarters that were rolled forward due to the fact they were not assigned a volunteer.

If they were assigned a volunteer this quarter, they count.

If they were not assigned a volunteer this quarter, they do not count. They can be rolled forward and counted in the future if and when a volunteer is assigned.
