

YOUR EXPERIENCE CAN SUPPORT YOUTH IN FOSTER CARE

“Too many LGBTQ youth come out to family members **only to face rejection, hatred, and violence**. Those facing the most extreme levels... are often forced out of their homes, or will run away, becoming homeless or entering the foster care system.”

— THE HUMAN RIGHTS CAMPAIGN

30% of youth in the child welfare system identify as LGBTQ+ compared to **11%** of youth not in foster care.

ONCE IN THE CHILD WELFARE SYSTEM, LGBTQ+ youth also experience worse outcomes:

- Intensified bias, discrimination, and harassment
- Increased physical and sexual violence
- Poorer school functioning
- Heightened health risks
- Elevated probability of depression and substance use
- Greater likelihood to be placed in a group room or unaccepting foster homes leading to a higher risk of running away and homelessness

HOW YOU CAN HELP

AS A CASA VOLUNTEER, you will advocate for the unique needs of youth in the child welfare system by:

- **SUPPORTING** youth through tough moments and challenging experiences
- **SUGGESTING** safe and affirming foster placements
- **MAKING** sure physical and mental health assessments are completed and any health needs care needs are understood and met
- **ESTABLISHING** supportive connections including family, friends and community organizations
- **INCREASING** their sense of safety and belonging by recognizing their whole self and validating their experiences
- **VERIFYING** educational supports are in place
