B. Calendaring

What does this youth's **points of connection (with other people)** look like in a typical month? In the calendar below, input all of the activities, visits, and involvement this youth has over the next month that we know of (i.e. school, faith-based activities, visits with family, etc.).

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday

C. Statement of Strengths, Needs, and Concerns

What are the biggest strengths of the child and parents?

What are the biggest safety concerns for the child and parents?

Permanency options the CFE Team is aware of presently:

D. Purpose

What is the purpose of CFE in this case? (Searching for family, identifying connections for children, placement need, building support for caregiver/parent, etc.)

CFE TEAM MEETING NOTES

Adapted from Family Finding™

E. Authentic Commitment

Determine the level of authentic commitment of the CFE Team to 1) be involved in the CFE process, 2) fully and meaningfully engage and plan with, and/or search for, family/kin, 3) be open to family/kin's involvement. **Note:** The CFE Team will work together for inviting, hosting, convening, facilitating, and sustaining the participation of the family and concerned adults. All will be expected to support these efforts.

Authenticity Scale

To what degree can the CFE Team authentically commit to participating in the CFE process (as outlined above)? This rating includes the commitment to attend and engage in the CFE family meetings.

V. Case Closure

Date of meeting:

Please think about the relationships represented on the connection tools that you completed at the start and end of this case.

- A. How many connections did the CFE team know of at the beginning of the case?
- B. How many of these connections had a strong, supportive, and positive relationship with the child at the start of the case? With the parent/s?
- C. How many connections did the CFE team know of at the close of the case?
- D. How many of these connections have a strong, supportive, and positive relationship with the child at the end of the case? With the parent/s?

Please reflect on how the strength and quality of relationships with the child and/or parent/s changed over the life of the case. Which relationships were strengthened? Which were weakened?

How many connections does the child have with supportive adults who will be there for the child after the CPS case ends? In other words, how many people are a part of the child's lifetime network? Who are these connections? Were they made, strengthened, or maintained during the CFE process?

If the child isn't connected and the case is not legally closing please reconsider ending CFE. Your work could focus on building connections in that child's past, present, or future to ensure a lifetime network of support.
