

TEXASCASA
Court Appointed Special Advocates
 **FOR CHILDREN**

IMPACT REPORT

2024

VISION

Texas CASA envisions a safe and positive future for all Texas children.

MISSION

Texas CASA's mission is to support local CASA volunteer advocacy programs and to advocate for effective public policy for children and families in the child protection system.

CORE VALUES

Texas CASA believes:

1. Children, parents and families of all abilities, backgrounds, experiences and identities deserve the highest quality advocacy and support.
2. Every child deserves to feel and be safe and to have their needs met.
3. It is in a child's best interest to remain with and be connected to their parents and family of origin whenever possible.
4. Every child deserves lifelong caring connections with others and a stable home.
5. All parents and family members should be provided the chance to be heard and to show themselves as safe and caring.
6. Every child deserves to thrive; children thrive and heal in healthy, positive relationships.
7. Family is defined by the individual and is not limited to blood or adoptive relations.
8. Every family is unique, complex and has their own challenges; challenges can be overcome and resilience can be built.
9. Collaboration is important for families and the professionals supporting them, and helps to build shared commitment, participation and understanding.
10. Legislative and social advocacy are powerful tools to systematically protect the health and well-being of children and families.

LETTER FROM LEADERSHIP

Established in 1989, Texas CASA serves as the membership association for all local Court Appointed Special Advocate (CASA) programs in the state. We support the local CASA programs with training, community awareness, resources and public policy to make a positive difference in the lives of children and families in Texas. Over the past 35 years, we have grown and advanced our initiatives – and this past year was no different.

In 2024, Texas CASA welcomed two new local programs to the statewide network: CASA of Milam County and CASA of Val Verde County. We are thrilled to have these two new programs join the CASA network and are looking forward to supporting the good work they will do in their communities for many years to come.

Also in 2024, Texas CASA worked to advance our own initiatives, as well as those of the local programs. Texas CASA successfully expanded the resources of our CASA Anti-Child Trafficking framework, known as CASA ACT, and created six new critical resources focusing on children in foster care who have been trafficked or are at risk of being trafficked. We also supported the expansion of a Court-Ordered Services pilot program and developed resources for the program like a Family Visit Guide and customizable Parent Brochure. Along with many other successful developments outlined in this report, we also assisted Child Advocates of Montgomery County in developing another new pilot program for justice-involved youth to explore what CASA volunteer’s role on juvenile cases could look like.

We look forward to continuing to advance these initiatives next year and we will strive to strengthen our partnership with the local programs as we work together for the greater good of the CASA mission. Thank you for your steadfast support and commitment to a safe, positive future for all Texas children and families.

Daniel J. O'Connell
Vicki Spriggs

Danny O'Connell
FY25 Texas CASA
Board President

Vicki Spriggs
Texas CASA CEO

THE TEXAS CASA STORY

Established in 1989, Texas CASA is the statewide membership association for all local CASA programs. In this role, we support the CASA network by serving as the administrator of state and federal funds, setting and monitoring standards, providing training, leading a statewide volunteer recruitment campaign, advocating for public policy and more. Texas CASA is committed to partnering with statewide stakeholders and the CASA network to elevate best practices when working with children and families.

TEXAS CASA STAFF AT THE 2024 TEXAS CASA CONFERENCE

Collectively, the local CASA programs serve the majority of Texas' 254 counties. As integral members of their respective communities, they recruit, train, supervise and support court-appointed volunteers to advocate for the best interest of children experiencing foster care. Local programs also coordinate and collaborate with other service providers who share the mission of supporting Texas families.

NEW CASA VOLUNTEERS WITH
CASA OF THE PINES

NEW CASA VOLUNTEERS WITH
GULF COAST CASA

THE CASA DIFFERENCE

“I have only been with one CASA volunteer, Mrs. Juli, and I love her. I hope there are more volunteers like her in CASA because she has made my life wonderful!”

—FORMER CASA CHILD

A Court Appointed Special Advocate (CASA) volunteer gathers information from everyone involved in a child’s daily life, including members of the child’s family, foster parents, teachers, lawyers, social workers and other relevant persons. Then, they report to a judge to advocate for the child’s best interests.

CASA volunteers are ordinary people who come from all walks of life, just like the children in foster care they help. They provide a consistent presence for the child and family, and are assigned to only one or two cases at a time. CASA volunteers take a trauma-informed approach and help find, engage and strengthen a support network for the child and family.

“Our CASA volunteer made us feel that she truly believed in us and our ability to get our baby back in our home. I mean it when I say that CASA volunteers can make a huge difference in how parents navigate through their case and be victorious in reuniting their family.”

—PARENT OF A CASA CHILD

TEXAS CASA SERVICES IN ACTION

AWARENESS

Texas CASA creates a statewide awareness campaign to support the local CASA programs in their effort to motivate and inspire people to become Court Appointed Special Advocates for children and youth in the foster care system.

The CASA Effect

Our new awareness campaign, developed in coordination with our marketing agency, Proof, will launch in fiscal year 2025. The new campaign, The CASA Effect, is a play on The Butterfly Effect, and emphasizes how small moments today can have a big impact on the future of the children and families served by local CASA programs.

Volunteer Power Unleashed Summit

The Volunteer Power Unleashed Summit occurs every two years, and was created to be a collaborative and community-centered opportunity for the CASA network to learn from one another. This year's event took place in San Antonio and more than 100 CASA volunteers and staff became detectives and set out on the ultimate two-day challenge: improve volunteer recruitment. Not only did attendees create plans to achieve this, but they also shared ideas for creative recruitment, how to effectively make first contact with potential volunteers, how to use volunteers as sources for recruiting and much more.

Clergy, CASA & Community

Texas CASA's Clergy, CASA & Community (CCC) initiative seeks to build a network of faith communities and leaders who will commit to speaking up for children in foster care and their families. The initiative began in 2021 with three pilot programs. In 2024 the CCC initiative added ten new local programs, expanding to 33 CASA programs across the state! These 33 programs are working diligently and have engaged close to 300 religious groups as of July 2024.

POLICY

Texas CASA collaborates with various state agencies as well as legislators, judges and child welfare stakeholders and advocates to support public policies that focus on improving outcomes for children and families in Texas

The Texas CASA Public Policy Team conducted eight post-session and nine pre-session legislative advocacy trainings across Texas for CASA staff, board members and volunteers in FY24. During each in-person training session, the Public Policy Team provided three hours of in-depth details about new legislative changes, what to expect in the 89th legislative session and up-to-date information regarding Community-Based Care expansion and the ongoing DFPS federal lawsuit. These training sessions provided the Public Policy Team with the opportunity to hear candid feedback directly from the staff and volunteers of our local CASA programs.

In FY24, the Public Policy Team partnered with and/or participated in:

- Steering Committee of the Child Protection Roundtable
- Children’s Commission Legal Standards of Representation workgroup
- Children’s Mental Health workgroup
- Supervised Independent Living workgroup
- Core Committee and six subcommittees of the Partners for Children and Families Committee at the Department of Family and Protective Services (DFPS)
- Single Source Continuum Contractors (SSCC) – facilitated communications between local programs and providers and DFPS staff when needed
- Texas Health and Human Services (HHSC) – Frequent meetings with HHSC & Texas Department of Public Safety to gather information needed regarding the fingerprint background check changes
- Monthly meetings with the DFPS leadership to address issues and discuss child welfare/CASA related concerns
- Member of the Data, Collaboration, Education, Training and System Improvement committees of the Children’s Commission

EDUCATION

Texas CASA shares critical knowledge and information with the CASA network and the community to strengthen advocacy for children and families. Some of our major programming includes Anti-Child Trafficking (CASA ACT), Collaborative Family Engagement (CFE), CASA on the Go advocacy podcasts, Supervisor Training, Assistance and Resources (STAR), volunteer recruitment, advocacy for children and youth, trauma informed care and local CASA program governance.

In FY24, Texas CASA hosted 236 in-person and online trainings with a live facilitator for local CASA program staff, board members and volunteers.

- **23,642** total hours of training provided
- **502** hours of facilitated training provided by Texas CASA employees
- **20,552** attendees

CASA College Numbers

- **8,768** courses completed
- **3,021** new users enrolled

CASA on the Go podcast published eleven episodes of continuing education content in FY24 for CASA volunteers and staff with over 10,500 downloads this fiscal year alone. The podcast is available for streaming on Apple Podcasts, Google Podcasts, Stitcher and Spotify.

Anti-Child Trafficking (ACT) Advancements in FY24

Youth who have been affected by trafficking in foster care need CASA volunteers who are well-trained, connected and prepared to support their specialized needs. CASA ACT is a call to action for the CASA network in Texas. The aim is to do more than “see something, say something,” it to educate, protect and provide skilled support when youth have been exploited. Read on to learn about the new ACT resources created in FY24.

New Anti-Child Trafficking Resources

CASA ACT Program Guide

The strategies and recommendations provided in this program guide can be used by local CASA programs that wish to be active partners in the anti-child trafficking and exploitation movement within their own communities.

The guide covers key terms, preventative advocacy and the four stages of starting an ACT program: exploration, preparation, implementation and integration.

Care Coordination Guide

The Care Coordination Resource Guide is your comprehensive source for understanding how Care Coordination Teams (CCTs) and Children’s Advocacy Center Multi-Disciplinary Teams (CAC MDTs) work together to support and protect children and youth at risk of exploitation or trafficking. This guide details the collaborative efforts of various stakeholders, including Court-Appointed Special Advocates (CASA) volunteers, who play a crucial role in advocating for youth in foster care — an at-risk group for trafficking.

CSE-IT Explained for Volunteers Testifying in Court

CASA volunteers may be asked about the Commercially Sexually Exploited-Identification Tool (CSE-IT, pronounced “See It”) in court. This guide was created as a tool for volunteers to deepen their understanding of the CSE-IT and aid them in presenting well-informed and credible information to the judges.

The guide covers:

- What is the CSE-IT? And how is it used?
- Screening versus Diagnosis
- CSE-IT Validation
- Court Reporting

New Outcry Postcard and Trifold

These handouts can be used by CASA volunteers and staff, as well as the general public as a quick reference on what to do if a young person discloses that they were trafficked or exploited. The files are free to download on the Texas CASA website in the Program Portal.

New CASA Advocacy Guidebook

CASA Advocacy for Dual-Status Youth, Understanding the Juvenile Justice System

Dual-status youth are children who are involved in both the child welfare and juvenile justice systems. CASA advocacy for these very vulnerable youth is critical and can serve as the bridge between the two systems in a way that supports healing and positive outcomes. This resource guide provides an overview of the juvenile justice system and supports a deeper understanding of the challenges dual-status youth face and how CASA volunteers can provide trauma-informed CASA advocacy.

New Anti-Child Trafficking Videos

What is CASA ACT?

Texas holds the unenviable position of ranking second in the nation for incoming tips on child sex trafficking. These statistics are not mere numbers; they represent lives in jeopardy, futures uncertain and innocence at risk. However, Texas CASA has taken proactive steps with the creation of the CASA ACT framework. This video was created to dive deeper into our call to action to do more than “see something, say something,” but to do something – to ACT.

CASA Anti-Child Trafficking (ACT) Stages of Change

Narrated by Rhonda Kuykendall, former Texas CASA Anti-Child Trafficking Consultant, this resource guides the viewer through the Stages of Change model — Pre-contemplation, Contemplation, Preparation, Action, Maintenance and Termination. The video shares insights into each stage and teaches practical ways to assist youth as they navigate their path to recovery. From understanding why youth may not immediately identify as a victim to providing consistent support through relapses, this video highlights the critical role of CASA volunteers in facilitating positive, lasting change.

Experiences of Youth Affected by Sex Trafficking: Survivors' Perspectives

This video is a discussion about the harrowing journeys of Crystal Sepulveda and Sara Nellis as they share their powerful stories of overcoming sex trafficking and navigating foster care. Their personal experiences reveal the profound vulnerabilities that led to their victimization and the complex challenges they faced while transitioning into adulthood. This video explores the impact of trauma on their lives, the crucial support systems that aided their recovery and their paths to reclaiming empowerment.

A discussion guide was also developed as a supplemental learning resource to the video, providing thoughtful questions for self or group reflection/discussion, and their corresponding answers/information.

SUPPORT

Texas CASA provides local programs with access to information and technical assistance to enhance their advocacy efforts for the safety and well-being of children, youth and families. We also provide crisis communication assistance, data management, fundraising support and needed resources and tools for all areas of operation.

Collaborative Family Engagement (CFE)

CFE is a team-based approach between local CASA programs and Child Protective Services, as well as Single Source Continuum Contractors, to engage, find and work with family members and fictive kin in the creation and development of a lifetime network for young people in the foster care system.

FY24 CFE Data:

- ▶ Programs utilizing CFE = **74***
- ▶ Counties utilizing CFE = **194**
- ▶ Children served = **10,427**
- ▶ Families served = **6,117**

* CASA of Travis County utilizes a different family engagement approach which includes some CFE tools, therefore their numbers are included in the overall data.

Supervisor Training, Assistance, and Resources (STAR)

The STAR (Supervisor Training, Assistance, and Resources) Team provides coaching, consultation and training to help volunteer supervisors assist the CASA advocates be the best advocate for a child in the foster care system. Helping the CASA volunteer understand their role and the roles of other people in the CASA child's support network allows them to be better equipped to help with their unique needs. Each month in FY24 the STAR Team hosted a webinar with special guests discussing topics such as *Understanding*

the DFPS Daycare Program and Advocating for Dual Status Youth. They also hosted an in-person STAR Strengths-Based Supervision training in San Antonio and Dallas.

Data Team Developments

The Texas CASA Data Team partners with the local CASA programs to jointly solve data challenges. By focusing on user-friendly dashboards, the Data Team aims to provide more usable analytics to help tell the CASA story. Beginning in FY24, the Data Team started working on ways to integrate other stakeholders' data into CASA's data to better tell the story and contextualize the service local CASA programs and volunteers provide.

Fund Development Support for Local Programs

In June 2024, Texas CASA was awarded with 50 round-trip flight passes from

Southwest Airlines. These passes allow us to assist CASA programs across the state in facilitating travel for volunteers who play a crucial role in the lives of children in need, especially when they are placed far from their community, across or out of state. As a Legacy Partner, Southwest Airlines was a crucial partner in the formation of Texas CASA 35 years ago. We are deeply grateful for their continued support and commitment to our mission.

In FY24 CASA Volunteers Traveled To:

- California
- Florida
- Illinois
- Kansas
- Kentucky
- Massachusetts
- Nevada
- New York
- Oregon
- South Carolina
- Texas
- Washington

**TOTAL OF 31,879
MILES TRAVELED
IN FY24.**

ACCOUNTABILITY

Texas CASA identifies, disperses, administers and manages federal and state funds.

We help local CASA programs effectively utilize state and federal funding to achieve their missions. Texas CASA also ensures compliance with CASA Standards, court mandates and state and federal laws.

Grants Administration for Local Programs

The Texas CASA Grants Team manages applications, budgeting, compliance and reporting for the Texas Health and Human Services Commission (HHSC) grant, Victims of Crime Act (VOCA) grant, Title IV-E for pre-service volunteer training (PSVT) grant and more. Along with their day-to-day technical assistance for local CASA programs, the Grants Team publishes an annual Guide to Grants which provides all the need-to-know information on grants that are administered through Texas CASA, and hosts an annual

grants webinar for the local CASA programs. The 2024 webinar discussed the HHSC and VOCA grant applications, as well as formula updates, timesheet requirements, indirect expense allocation policies, budgeting and standardize language, budget revision highlights, documentation review highlights and annual audit highlights.

Quality Assurance for Local Programs

Quality Assurance, QA for short, is a crucial and necessary part of what Texas CASA does for the local CASA programs. Using a three-year cycle, the QA Team provides training and conducts reviews of all local CASA programs to ensure compliance with requirements. The QA Team, all former local program Executive Directors, tailor the QA preparation training to each program's unique challenges and requests. This specialized review process provides a mechanism for the CASA programs to measure and demonstrate their impact.

In fiscal year 2024, Texas CASA completed 24 Quality Assurance reviews of the local programs and hosted a statewide group training in May with 103 attendees from 24 local programs.

LEADERSHIP

Texas CASA provides innovative trainings, programming and resources for local CASA program leadership including board members, executive directors and staff to develop new avenues for advocacy and excellence on behalf of children and families.

Program Leadership Connect at Together We Can! Growth Strategy Meeting

In January, Texas CASA brought together local program executive directors and board presidents for an important discussion on the state of the Texas child protection system and the challenges CASA programs are facing. Together We Can! was the first meeting of its kind where executive directors and board chairs brainstormed strategies to

break through barriers to achieve our goal – providing a CASA volunteer for every child who needs one. With 53 programs represented from across the state, the meeting was a true success!

New Executive Director University

In the beginning of the fiscal year, Texas CASA was honored to host the first in-person New Executive Director University (New ED U). Celeste Prather, Texas CASA's Program Operations Director, brought together 13 Executive Directors from CASA programs all over the state for a full day of learning, networking and fun!

Program Director Training

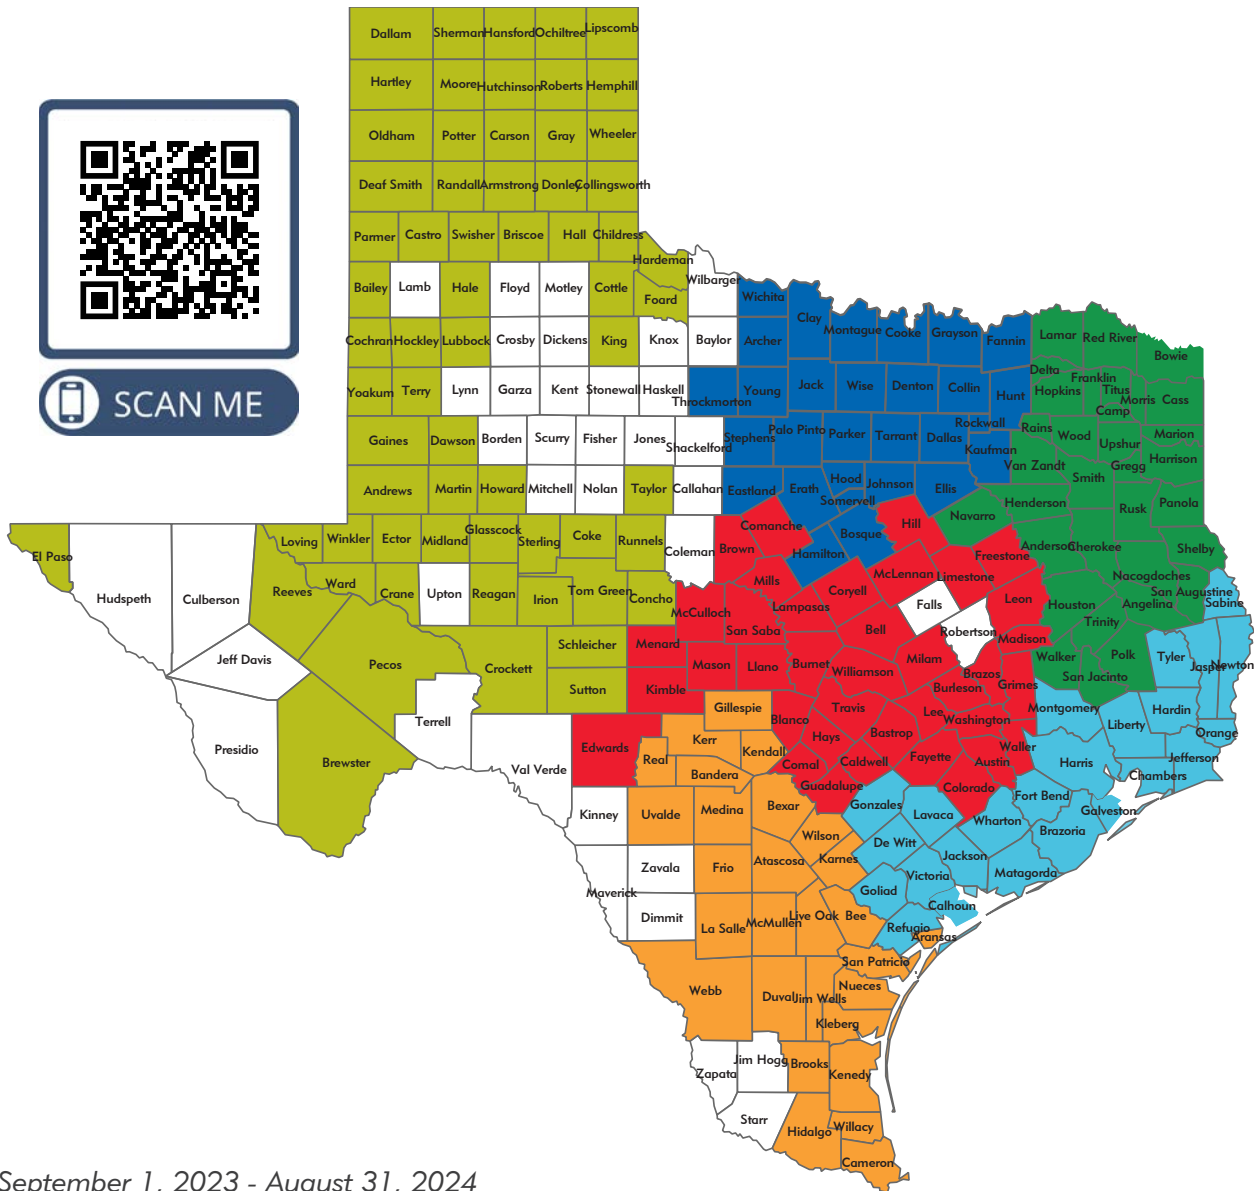

In June, Texas CASA hosted Program Directors from around the state for a full day of training and networking. Program Directors learned about management practices, embedding Collaborative Family Engagement (CFE) into areas of advocacy, volunteer retention techniques and safety planning advocacy.

The data presented is self-reported from the local CASA programs. If you have questions related to the data, please reach out to the Texas CASA data team at tcims@texascasa.org.

PILLARS OF CASA VOLUNTEER ADVOCACY IN TEXAS FY24

PILLAR 1: CHILD WELLBEING

The local CASA programs demonstrate advocacy for children, parents and family as a result of understanding current needs. This takes many forms, from child visits in their foster placements, attending educational meetings (ARD, IEP, 504), keeping up with a child’s Health Passport and other health-related issues, working with youth to obtain ID documents and providing specialized support for youth at risk of human trafficking. In FY24 the local CASA programs provided **105,663 instances of service** toward children’s personal wellness.

BY THE NUMBERS

HOURS	288,697
INSTANCES	105,663
TOTAL CHILDREN SERVED	18,208

A children’s educational career is often interrupted or derailed because of their involved trauma, which leads to numerous absences, missed credits and a general aversion to school. In this case, a CASA advocate collaborated closely with educators and school counselors to ensure the siblings received the needed academic and emotional support. This included individualized education plans to address learning gaps, counseling services to help them process their experiences and extracurricular activities to foster their talents and interests. Through these efforts, the young man is thriving in a new school, and his sister is on her way to completing her GED. The dramatic change in their approach to schooling will ensure a future filled with possibilities. — CHILD ADVOCATES SAN ANTONIO

PILLAR 2: LEGAL ADVOCACY

The local CASA programs perform legal advocacy services for children and keep the court informed about each child’s needs. This includes testifying in court hearings, attending mediation, collaborating with Crime Victims Compensation, writing fact-based court reports for the judiciary presiding over the CPS case and more. In FY24 the local CASA programs provided **44,313 instances of legal advocacy services**.

BY THE NUMBERS

HOURS	138,862
INSTANCES	44,313
TOTAL CHILDREN SERVED	18,208

NEW CASA VOLUNTEERS FROM LONE STAR CASA

PILLAR 3: FAMILY CONNECTIONS

The local CASA programs actively work towards increasing family connections. This type of advocacy includes Collaborative Family Engagement (CFE) Tools, Family Meetings, contacts with parents, relatives and their support systems and more. In FY24 the local CASA programs provided **40,525 instances of family-centered services.**

BY THE NUMBERS

HOURS	138,863
INSTANCES	40,525
TOTAL CHILDREN SERVED	18,208

While working with a mother and her son who is non-verbal and autistic we were able to utilize the Collaborative Family Engagement (CFE) tools to help build a network of people for not only the child, but also for his mother which helped lead to reunification. When we began working with Mom she had very few people in her network that were able to help her navigate through her legal CPS case and offer assistance. Mom unfortunately had a strained relationship with her family for years due to her substance abuse and was not from the area. By utilizing the CFE tools and approach, CASA and CPS were able to help this mother build a strong network of support and engage them through Family Meetings. During these meetings, Mom was able to communicate some of her barriers to her support network, which led to Mom rebuilding her relationship with her own mother. With Grandma's support, as well as her large network of friends, family, the child's foster family and community support, this family was able to be reunified and relocated to live with Grandma. — CASA SUPERVISOR

If you've been left off this list or your name is misspelled, please accept our apologies and contact
the Fund Development team at socialimpact@texascasa.org so we can properly thank you.

Texas CASA provides support and services that no single program could provide on its own, like public policy advocacy, funding, statewide awareness, training and technical assistance for program staff, board and volunteers.

THREE WAYS TO GET INVOLVED WITH CASA

- 1. VOLUNTEER.** Help amplify a child's voice during their time in foster care. Get started today at [BecomeACASA.org](https://www.becomeacasa.org).
- 2. NOMINATE.** Put in a good word for us by letting your friends and family know they have what it takes to be a CASA volunteer! Nominate them today at [NominateACASA.org](https://www.nominateacasa.org).
- 3. DONATE.** A donation to Texas CASA is an investment in the statewide CASA community and the future of Texas children and families. Make your gift today at [TexasCASA.org/donate](https://www.texascasa.org/donate).
