# How to Open a Dropbox File in 2 Steps

1. To open a Dropbox file without having to sign in to Dropbox, click on the Dropbox link to the file. Once the desired file is open, click on the **arrow icon** in the right corner, to download.

2. If a popup appears asking you to log in or sign up, click the bottom button that says "**Or continue with download only**" and you will be able to proceed downloading your file.
